Hi Ken.

As a follow-up to our quick phone call, Bill Bates asked us to send in some info on the CES project for an OW presentation/briefing (see bottom email thread for request). Calvin put together the attached slides. I reviewed them and had no comments. Calvin forwarded the slides to Bill and I got a reply from him asking if Tomas sign-offed on the slides and he has not. Can you please review the slides and let me know if you concur with the material or if you have comments/edits? Also, let me know if you will seek Kristin's concurrence too.

Turn around for this is really quick -- next hour or two if possible.

Thanks. Kate

Hey Kate,

I think we are trying to get something to OW by the end of the day. Anita and Jennifer will want to take a look at it before that. Sorry about the fast turn around on this.

Cheers
Bill

Hi Bill.

We did not send this info to Tomas. I did look at the slides and had no comments. I will work through Ken Wysocki, Assistant Branch Director, to see if he has input and/or need to vet through Tomas. When are you sending it up to OW?

Kate

Hey Kate,

We will be sending something like this up to OW. Has Tomas looked at this.

Cheers
Bill

Hi All,

Here are a few slides regarding CES.

Regards,

We will certainly do our best Bill. I am forwarding the request to Calvin, who is the permit writer. Kate is acting for David tomorrow, but I can also lend a hand if that would help. Given the request is at the end of the day today, and midday tomorrow is our morning, I would not imagine we can get this done before midday tomorrow, our time, realistically.

Thanks,
Michele

Subject: CES

Hey there all,

So we just got a request from OW regarding CES. OW is asking for a little background on the application and project.

Would you be able to send us some bullets on the the project? Anita is asking the we get something to Jennifer by midday tomorrow.

I was thinking some information regarding the volume of CO₂, the source, a little bit about the project and some general information on the location.

Would you all be able to help us out with that information?

Cheers
Bill
